"The Ottawa Spotlight" Funeral Services for W. H. Keeler, Prominent Farmer

(Weekly Review of National Affairs)
By Inspector M. McDougall

Ottawa, July 18.—The invitation made by Mr. King to leaders of the opposition to join the war committee of the cabinet as associate members has been rejected. Mr. Hanson, leader of the Conservative party, told the House of Commons, that after grave reflection he felt he could not accept as the effect of this would be that of accepting "responsibility without power." He said he believed, he would serve the interest of his country better by retaining full liberty of action in his very important task as leader of the opposition. Mr. George Stirling, former minister of national defence, associated with Mr. Hanson in the invitation agreed that it was impossible for them to accept and the leaders of the CCF and New Democracy, Mr. Coldwell and Mr. Blackmore, who were to be invited in case the Conservative leaders accepted, explained the reasons why they would not have considered it advisable to join in cabinet committee councils as associate members. Mr. King, accepting the decision regretfully, said Mr. Hanson had misconstrued his motives in tendering the invitation. The object was to make available to the war cabinet the advice, counsel, and experience of the opposition leaders in parliament, and he had specifically stated that this would not in any way hamper their work of criticizing the government. They had, however, made their position quite clear and the government "will continue to govern under the British parliamentary system, whereby the majority in parliament are given that duty and that responsibility." He gave no intimation of the suggestion that has been advanced at times that a national government would be formed.

Bills are passing through parliament creating the new departments of "National Defence for Naval Services" and "National War Services." The changes that were announced a week ago in the Dominion cabinet were described.

Alberta Federation Of Agriculture

With 36 co-operative and agricultural organizations represented, the annual meeting of the Alberta Federation of Agriculture, held in Red Deer, July 4 and 5, saw the launching of the Alberta Federation of Agriculture. The Federation, which will take the place of the Co-operative Council, will embrace in its membership organizations devoted to agricultural interests not co-operative in nature and the chairmen in the constitution is expected to see the establishment of a stronger provincial link in the Canadian Federation of Agriculture than in the past.

aimed to increase efficiency in the administration of the war effort. Each of the combatant services, that is army air and navy, will have a full time minister of its own. Col. Hanson has taken over the duties of Minister of National Defence in succession to the late Mr. Norman Rogers. His main concern will be the expansion and administration of Canada's land forces both for overseas service and for home defence. Already he has called on Canada for the 40,000 men needed for the Canadian Active Service Force. Mr. Power, is already at the head of the National Defence for air, and his duties cover the Royal Canadian Air Force and the Commonwealth Air Training plan, that is the administration of the entire effort to have Canada play a leading part in the aerial defence of the empire. And while dealing with this department, it should be mentioned that the Australian flyers coming to receive final training in Canadian air schools will arrive on schedule. National Defence departments are in energetic hands and this seal is making itself felt.

For the first time the naval services will have a separate minister of their own. Mr. Angus Macdonald, former prime minister of Nova Scotia, who is generally admitted by political friends and foes alike will be a valuable addition to the roll of cabinet ministers will hold this portfolio. Canada's small but efficient navy has been doing tireless and highly appreciated work on both sides of the Atlantic and many auxiliary vessels are being added to the fleet.

Mr. C. D. Howe has relinquished the portfolio of transport, although retaining some of the duties formerly associated with that department, to give his undivided attention to the extremely important duties of the ministry of munitions and supply. The machine and war materials need the undivided efforts of the minister. Munition and equipment orders now being placed in Canada by both the Canadian and British governments to meet the expanding demands of the war, are larger and cover a wider field than at any time since the conflict began. Plant facilities are growing rapidly. The aircraft plants are working at full speed. A new company "The Allied Supplies Ltd." has been incorporated under the chairmanship of Mr. C. A. Dunning, former minister of finance to look after the administration of the munitions and explosives program undertaken on behalf of the British government and of any other British-Canadian development which may be assigned to it. This company is one of three non-profit making government owned companies looking after special work in connection with the production of war

In the untimely death of Walter Henry John Keeler, which occurred at the Holy Cross Hospital at Calgary on July 11th, the Strathmore District lost another pioneer resident and prominent farmer.

He was born at Scarborough, near Toronto, on June 15th, 1886, and came west to Manitoba with an uncle in 1906. From 1904 to 1909 he spent in the State of Washington and in the Province of British Columbia, coming to Strathmore in 1909 where he was employed by the late George Layton until 1912, when he entered the C.P.R. service as District Agent at Calgary, about 15 miles north of Strathmore. Later he moved to Winona, near the town of Strathmore, where he planted many trees which now make this an outstanding beauty spot. In 1917 he engaged in farming at the present family home "Mountain View," 15 miles northeast of Strathmore, which he continued until his final illness.

Mr. Keeler was married on June 29, 1911, to Elaine Bartlett, eldest daughter of Mr. E. Bartlett, who died only three and a half months ago. Their marriage was the first one to be solemnized in the then new Sacred Heart Church, Strathmore. He is survived by his mother in Toronto, a brother, Joseph, and two sons, who with the family consisting of his widow and the following children—Margaret, supplies. The other companies are the Atlantic Merchandising Company Ltd., attending to the supply of machine tools and the Federal Aircraft Ltd., coordinating the output of Anson advanced trainers already.

The entire new department of National War Services, under the administration of Mr. Gardiner, minister of the war effort, is to take the national registration of human and material resources. All members of parliament are going to be required to appear before a registrar, who will select a small voluntary committee in his constituency which will assist the permanent officials in carrying out the registration. This is a new department which will be to promote, organize and coordinate the different forms of voluntary assistance to the war effort. It is also in charge of public information and a special deputy minister may be appointed to look after this particular branch. The registrar, General Leitch and Mr. Justice Davis, who have been appointed to this department, the duties of which will cover economic and other aspects of the war.

Odella (Mrs. Nell) (Glenning), Mary, Stephanie (Mrs. Oscar) Swenson, Joseph, Pauline (Mrs. David) Longbotham, John, Jacob, William, Antonette, Helen, Anna and Frederick, as well as two grandchildren, Carline Joseph Swenson and Anita Louise Longbotham.

Walter Keeler's genial disposition, during his many years' residence in the community, earned him an exceptionally wide circle of friends. His favorite pastimes were hunting and fishing. He was a member of Calgary Council of the Knights of Columbus and a devoted member of Sacred Heart Parish, Strathmore.

The largely attended funeral took place on Monday, July 15th, from Sacred Heart Church, Strathmore, where High Mass of Requiem was celebrated by the Pastor, Rev. Father A. E. Rowland, assisted by Rev. Father J. Q. Kilien, Rockford, as Deacon and Rev. Father C. Clancy, Calgary, as Sub Deacon. The pall bearers were Messrs. S. Swenson, J. G. Porteous, M. A. Reilinger, J. Molins, P. J. Boer and T. Schutte. Burial took place in the family plot, Sacred Heart Cemetery, Strathmore, with arrangements in charge of Jacques Funeral Home. The casket in which the deceased was borne was further attested by the large numbers attending prayers for him on Sunday evening and by the many spiritual and floral offerings received.

NATIONAL REGISTRATION MACHINERY. COMPLETE AUGUST 1

In a statement from Mr. Justice T. Davis, joint deputy to Mr. J. C. Gardiner, minister of the national war services department, he said that all machinery for the registration of Canadians will be completed by August 1. He said that the registration of Canadians will be completed by August 1. He said that the registration of Canadians will be completed by August 1.

Heavy roads deterred country members from attending the weekly meeting last Tuesday, but there was a good turnout of veterans from the town to go through the paces of the first drill. This unit is fortunate in having one of the Legion members, Staff Sergeant A. H. Ewell, come from military Headquarters in Calgary to give instructions. The new Squad drill is a change from the former routine, quite an improvement—less orders and movements, and it wasn't long before the rusty edges were rubbed off of their feet and arms. All veterans are reminded that the Memorial Hall is the place, the date is every Tuesday, and the time 8 p.m.

RED CROSS SHIPMENTS

The second shipment from the Strathmore branch of the Red Cross during June has recently been sent to the Provincial Branch at Calgary and includes—32 sweaters, 15 pairs of socks; 2 quince helmets; 6 pairs of socks; 8 scarves; 1 sweater from the Sorosis Society; 1 pair of mitts donated by the unit altogether of 142 knitted articles for June.

The following shipment of comfort goods also was made on July 12th: 12 pairs of pyjamas; 6 pillow cases; 12 sheets; 6 bed jackets; 4 dozen handkerchiefs; 1 pair new blankets; 1 single blanket (washed); 1 coat and for general relief work; 2 pairs of double blankets (new).

RED CROSS NOTES

Correction in June 1940 Financial Statement. Receipts from other activities, Battle 28.40—Should have read.—Proceed of a raffle of cloth donated by Mrs. A. P. Gray and sponsored by the local branch of the Canadian Red Cross—28.40.

Weddings

COTT - MCGREGOR

Saturday afternoon, July 13th, in the home of Rev. and Mrs. Atkinson of Central United Church, Calgary, the marriage took place of Gladys Eleanor daughter of Mr. and Mrs. J. M. Atkinson of Black Diamond, and Fredrick Edwin Cott, only son of Mrs. P. Cott and the late F. A. Cott of Strathmore.

The strains of the bridal march from Lohengrin, played by Mr. Maud Atkinson of Regina, the bride entered the room on the arm of her father. She was preceded by her sister Miss W. L. Atkinson who was matron of honor. The bride looked charming in a gown of white silk crepe with figure belt in pastel shades. With it she wore a picture hat of dusky rose and accessories to match. She carried a handkerchief of French lace, carried by her mother on her wedding day. Her corsage was of sweetest roses. Her matron of honor chose the occasion a princess model in pastel shades, with accessories of blue. Her flowers were white carnations.

Mr. W. S. McGregor, brother of the bride attended the groom. During the signing of the register Mr. Atkinson played "I Love You Truly." A reception for about 15 guests was held later at the Avenue Grill, where the mothers of bride and groom received the guests. Mrs. McGregor wore an ensemble of navy blue sheer with white accessories and corsage of red roses. Mrs. Cott chose a dusky rose ensemble with royal blue accessories and corsage of tea roses.

The bride's table looked very attractive and was centred with the wedding cake. Mr. and Mrs. Cott are spending the week end with Mr. and Mrs. C. V. Chase and Mr. and Mrs. Anson Chase at Strathmore and later will leave for their trip to the coast. They will make their home at Black Diamond.

OLDHAM - FREEMAN

The Rectory of St. Michael's and All Angels' Church was the setting for a quiet afternoon wedding when at 4 o'clock, Sunday afternoon, Dorothy Mary elder daughter of Mr. and Mrs. J. L. Freeman of Strathmore, became the bride of Thomas Oldham, younger son of Mr. and Mrs. Oldham, Strathmore.

The bride, who was given in marriage by her brother, Jack, looked winsome in an afternoon frock of white crepe, with white accessories. Her sister, Mrs. John Oldham, matron of honor, chose for the occasion a jacket dress in coral pink. She also wore white accessories. After a short honeymoon, the happy couple will return to Strathmore, and live in the Christian house.

PATRICK - McDOWELL

Saturday evening at 7:30 St. Stephen's Church, Calgary provided a very pretty setting, decorated with bouquets of pastel-shaded peonies and bright blue delphiniums, for the wedding of Miss Margaret Janice, elder daughter of Mr. T. R. McDowell of Calgary and Mr. George Henry Patrick, only son of Mr. G. H. Patrick of Strathmore.

The bride, given in marriage by her father, wore a lovely white sheer gown with bishop sleeves and high rounded neck. Her hair was styled in a chapeau veil gathered into a ruff above her hair with a group of sweetest roses, and carried a large bouquet of butterfly roses with carnations and sweetest roses forming the centre.

INDUCTION SERVICE FOR REV. STANLEY R. HUNT

POST OFFICE HALF DAY

A new ruling that is quite justified in the closing in future of the local Post Office on Wednesday afternoons. This will work no hardship on anyone, when they know that any necessary stamps, money orders, etc. must be obtained before or after Wednesday half-day, and will give the post-office officials a much appreciated break in the routine.

UNITED CHURCH SUNDAY SCHOOL PICNIC

Tuesday afternoon saw a large group of youngsters gathered at the United Church anxiously awaiting the arrival of a number of cars and a truck which were to take them to the beach water at Beaver Dam. The annual Sunday School picnic was underway.

Immediately upon arrival, scores of the youngsters discarded everything but trucks or bathing suit and spent a merry time splashing or paddling about in the water. When they could be wheeled away from this gay sport, the races were begun, and brought forth gases of laughter at some of the more unconventional ones—the potato race, the sack race and so on. Under Mr. Johnston's leadership, the older boys and girls split into teams and played volleyball. Meanwhile the mothers and fathers were busy with the refreshments in the preparation of the lunch. . . . Their efforts being appreciated enough to stop the softball game for quite some time. It was resumed however, immediately afterwards, and continued until about 6:30, when the approaching rain made it necessary to pack up and return.

The committee in charge felt that it was hard work, but the spirit expressed by the many happy smiles, and all the exhilarated cheers, make them feel that it was all well worth while.

EXCELLENT ATTENDANCE AT STAMP OUT HITLER SHOW

"Standing room at the back," was all the words could offer the late comers at the Hitler's Theatre on Monday evening, in the joint effort of all theatre owners across Canada to boost the sale of their savings stamps. One of the largest crowds in the theatre came to see Alexander's Hagtime Band and to put the sale of Savings Stamp on the top. Mr. Tommy Wright acted as chairman for the evening, thanking the audience for their splendid support, and announcing that the total haul from the sale of stamps in Strathmore for this show amounted to \$138.25.

So great was the sale of stamps in fact, that the supply allotted was far over sold, almost by thirty dollars. After combing the town for all available supplies, Mrs. Hirtle in the ticket office finally was able to accept the name of the purchaser with a promise that the stamps would be ordered and forwarded as soon as possible.

First purchaser of stamps and tickets for the performance in Strathmore was Mr. Tommy Chamberlain. It is reported that Mr. Chamberlain brought a camp cot and two benches with him, and in the approved manner set up his vigil at the ticket booth hours before the commencement of sale. Highest individual sales ran up to four dollars, and there were some eight of these sales. Special praise should be given the work of the C. G. I. T. girls who made canvases of townspeople and set up their ticket sale booth in the door of the theatre, and who did excellent work in the sale of stamps, and also of the local radio artists who set up the public address system on Main Street, and regaled the public with their efforts to assist.

In checking with the Film Exchange, Calgary, the Hirtle's have found that the proceeds from Strathmore amounted to almost twice those of a number of towns of similar size, and amounted to very nearly the same figure as did Red Deer's. Proceeds from Mr. Hirtle's theatre in Cleburn ran up to \$170.00.

Rev. Stanley R. Hunt, B.A., B.D., was inducted as Pastor of the Strathmore charge at an impressive and interesting service in the United Church last Friday evening.

The people bided their time because Mr. Hunt and clearly responded to by Mr. Hunt. The address to the new pastor was given by Mr. Stratton who gave some practical and helpful suggestions for the guidance of the newly inducted pastor.

Rev. M. E. Aitken gave the address to the people basing his remarks on the text taken from Nehemiah. "The people bided their time because they had a mind to work." The speaker urged the people to give their fullest cooperation to the newly appointed pastor and to his wife, by their prayers, their sympathy, their attendance at church services, and their willingness to work.

Following the service refreshments were served in the church basement, when a pleasant social hour was enjoyed.

ENCOURAGE KNITTING DURING HOLIDAYS

On their vacation trips this summer Alberta women can profitably use spare time knitting shoulder shawls for convalescing Canadian soldiers in hospital. About 30 inches square, plain knitting, in bright colours and of any weight soft wool, they are easy to make.

Red Cross Hospital visitors in England discovered the need for these shawls and notified Canadian Red Cross authorities. Knitting them is a pleasant old-time job and fits in well as a vacation pastime. Send your finished shawl to your nearest Red Cross Branch for shipment to England.

Members of the visitor committee in England are in contact with all hospitals to look after the comfort of every Canadian soldier admitted. If the patient is unable to do so himself the visitor writes the relative in Canada, keeping them informed of his progress.

Through a misunderstanding. The standard stated in its previous issue that the Ambulance Fund was closed. Such is not the case now, as we are within a few points of reaching our objective. The books are still open to receive subscriptions.

COMING EVENTS

To all who enjoy a good dance—Friday evening in mid July 30th when the W. I. gives you a cordial invitation to Nightingale Hall. Mrs. Whitaker's orchestra will provide the music and the Nightingale community guarantees you a good time.

TEN LITTLE CHISELERS—

Ten little chiselers, cuttin' all the time;
One cut a little more, then there were only nine.
Nine little chiselers, feeling kinda neat;
One forgot overhead, then there were eight.
Eight little chiselers, looking up to heaven;
One took a credit risk, now there's seven.
Seven little chiselers thought they couldn't mix;
One quit the association, now it leaves six.
Six little chiselers, all still alive;
One cut the price again, now we have only five.
Five little chiselers, cryin' for more;
One couldn't pay his bill, now we have only four.
Four little chiselers, all full of glue;
One forgot the pattern, so we have only three.
Three little chiselers, don't know what to do;
One cut a low price, now they're only two.
Two little chiselers, a cuttin' by gum;
One cut the other's throat, now we have only one.
One little chiseler, left without a penny;
He can't cut no more, so now we haven't any.

BASIN LISTING FOR MOISTURE CONSERVATION

(Experimental Farm News)

Basin listing, a tillage practice designed to conserve runoff water in the soil, has been introduced on the Canadian prairies within the past few years. The value of this practice, especially in its effects on crop yields, has been investigated by several Dominion Experimental Farms. Insofar as experimental work conducted over a period of three years would indicate, basin listing has had no definitely beneficial effect on crop yields in the drier regions of the Prairie Provinces. Basin listing, or damming listing, is a cultural operation whereby narrow depressions or "basins" are formed on the surface of the soil to serve as small reservoirs for water, which would otherwise be lost as runoff. States Wm. Dickson, Field Husbandry Division, Dominion Experimental Farms Service. This is usually effected by forming small dams of earth at intervals of eight or ten feet along a listed furrow, the furrows being about three or four feet apart. Specially designed listers, equipped with a tripping device to form the dams, are available for this work. The value claimed for basin listing is that it will conserve soil moisture and prevent erosion by heavy runoff.

During the past three years experiments on basin listing have been conducted under a wide range of soil conditions by the Dominion Experimental Farms at Brandon Min., Indian Head, Sask., Swift Current, Sask., Scott, Sask., and Lethbridge, Alta. These experiments consisted of comparing soil moisture and crop yields on continuous listed and unlisted fields. On the average in any one year or over the three year period, no conclusive beneficial effect of basin listing has been observed. On some individual fields increases have resulted on basin listed land, but on the other fields the reverse has been true. Sufficient experimental work has not yet been done to determine the conditions, if any, under which basin listing is likely to prove suitably beneficial. Further work to this end is in progress.

It should be pointed out that basin listing does tend to check loss of water by run-off. In view of this fact no definite reason can be advanced for the failure of this practice to prove more generally beneficial. It would seem, however, that the deeply ridged surface of listed land promotes increased evaporation of soil moisture and that the loose, deep till results in unsatisfactory conditions for germination and growth.

One disadvantage of basin listing and of listing in general, is that it adds to the labour of seed bed preparation, since extra tillage operations may be required for leveling the ridges. This disadvantage may be offset in certain districts however, by the control of soil drifting which may be effected by basin listing.

What Does The Automotive Industry Mean to Canada?

BY FRANK VAN TIGHEM

The automotive manufacturing industry is one of Canada's leading secondary industries. As such, it plays an important role in the economic and social life of Canada, both directly, by providing employment to thousands, and indirectly, through its effect on other Canadian industries. A higher standard of living in Canada has been made possible by reason of this industry which employs over fourteen thousand people. Over two million dollars yearly is paid in salaries and wages to these employees, most of whom are male. Besides this, in Eastern Canada there are over three hundred factories where finished and semi-finished parts are manufactured before being shipped to the automotive manufacturers in plants. Raw materials such as are needed in the making of these parts come from all sections of Canada. This gives employment not only to those engaged in the factories and in providing the raw materials, but also to the people needed for transportation, power, telephone and telegraph services. As employment in the Dominion increases the standard of living must necessarily rise.

The automotive manufacturing industry brings an increase in business to other Canadian industries. For example, iron, steel, nickel, copper, lead and zinc, all of which are needed in the manufacture of cars help the mining industry. Similarly other industries are helped. Wool and textiles are necessary for carpets and upholstery, glass for windows and headlights, rubber for tires, and paints and varnishes for finishing the cars.

All the primary industries are indirectly given a great deal of help through the automotive manufacturing industry. The establishment of this industry has resulted in the creation of some of the most of inestimable value to every part of the Dominion. With steady employment and regular pay cheques, the purchasing power of the automotive worker is increased, enabling him to do many things formerly impossible. He is able to buy more luxuries such as bread, butter, meat, eggs, honey and other commodities, grown and produced in Western Canada, all of which help the agricultural industry. He is able to buy more clothing and shoe manufacturing industries. He is able to build his own home and furnish it, building the lumbering and building industries. Then, once he has his own home, he takes more pride in keeping it and the grounds surrounding it in good condition, and so the plants, trees, shrubs and flowers which all help to beautify Canada.

As a result of this automotive industry there are in Canada organizations of men highly skilled and trained in quality planning, in precision tool designing, in the treatment of high grade alloy steels. In time of war these organizations can quickly be turned to the manufacture of mechanized units of defense.

Canada's export business in automobiles is a factor of great importance to the country. It means that people in other countries pay for the cost of Canadian materials, labor and the various services required in the making of automobiles. Every country tries to have a favorable trade balance. That is to say, it tries to have the value of exports greater than the value of its imports. Canada exports about one third of its automobiles, amounting to nearly sixty thousand, amounting to nearly sixty thousand, amounting to nearly sixty thousand.

DEPT. OF AGRICULTURE REPORT FOR STRATHMORE DISTRICT

Weather has been hot with slight deterioration on dry lands. General rains would be welcome. Wheat is heading, while coarse grains are in the shock-bloom. Hay is under way, with average yields being reported. Livestock are making normal progress. Dairy production is about average. This division has suffered from drought, although showers over week end were very helpful. Wheat is coming into head in several districts. Coarse grains are below normal, but late rains will be very beneficial. Pastures are holding well. Hay yields are good. No serious damage has been reported to date. Cattle are doing well, showing some increase in feeders. There is a slight shortage of feed for swine in certain areas. Dairying is normal, but more interest is being taken in poultry.

about twenty million dollars a year. The value of the automotive export business can be shown by the fact that in 1936 the export of automobiles ranked ninth among the leading domestic exports of Canada. Due to the keen competition with the United Kingdom and the United States if this export business is once lost it is not likely to be regained.

Canada's national protective policy has resulted in the development of the automotive industries in Canada. A tariff board survey has shown that fact that these industries have an economic advantage to Canada and Canadians, far in excess of the additional cost of automobiles in Canada. When a person buys a Canadian automobile he pays the higher price which is required to keep the Automotive Industry functioning in Canada with its many advantages to Canada as a whole. With the exception of the United States and Canada all the automobiles in the world cost well over a thousand dollars. Canadian automobiles cost about twenty-five percent more than automobiles made in the United States. Mass production in the United States makes these low prices possible.

Canadian manufacturers, because of the higher unit price, receive from the people of Canada millions of dollars more for vehicles and parts produced in Canada than was received by United States manufacturers for the equal number of replacements made in that country. The automotive industry is required, by law, to give a certain amount to the national income in return for the protection afforded it by the tariff board. A group of over one hundred manufacturers reported the payment of two million dollars in duties and taxes to Federal, Provincial and Municipal governments generally.

Canada is the only country which has so little protection against foreign competitors. Automobiles imported from the United Kingdom are sold free of duty, while the duty on automobiles imported from the United States is but seventeen and one half percent. The excise five percent which is used to be on automobiles imported from the United States, was removed by the Special War Revenue Act and replaced by an excise three percent tax. The tariff rate on automobiles is much below the level of tariff rates on manufactured things generally.

Canada could struggle on without the Automotive Manufacturing industry but not very successfully. Industry might be sold to be one of Canada's arms. The fingers on the arm are the industries given business through the Automotive Manufacturing industry. These finger industries stretching forth from the arm Automotive industry are, as we have already noted, the lumbering and building industries, mining industries, wool and textile industries, and even the glass and various industries. Truly, an arm which is fed by so many finger industries, must mean very much to our country, Canada. Canada needs the Automotive Manufacturing industry.

CAN YOU imagine life in a world without paper?

The product of a million uses! It is quite true to say that without the development of suitable papers the printing industry could not have reached its present peak position. It is equally true, on the other hand, that without the demand of the printer, the paper industry might have continued a comparatively small industry, as it did for several centuries.

A form of paper, made from the papyrus plant, (from which paper derives its name), was used five thousand years ago by the Egyptians. Paper was also known to the Chinese in 220 A. D. A paper-making plant founded in Damascus in 825 A. D., became the centre of supply for the whole of Europe for several centuries.

Most of the work of early scribers, however, was done on parchment made from animals' skins. The invention of printing brought a demand for paper. Early papers in Europe were made by hand, from linen rags, the uniformity of the sheet depending on the skill of the craftsman. In 1803 paper became so dear and scarce in England that for a time all printing ceased there.

The early eighteenth century saw the first substitution of cellulose for rags, of machine power for man power. Paper from straw and wood was produced in France by Mathieu Koeper about 1800. In England, in 1804, a paper making machine was invented by the Fourdriniers. These two epoch-making inventions made possible the growth of the modern paper industry and contributed an essential part to the development of printing. Today the range of paper in use includes newspaper, book bond, parchment and linen papers, glassine, transparent, metallic, cover, tissue, kraft and wall papers, etc. Most of these reach the consumer after passing through the print shop.

In celebrating the five hundredth anniversary of printing, we pause to remind ourselves that our great paper industry is of prime importance to Canada. Paper and printing for propaganda are the new weapons of warfare both for offense and defense.

PROPOSED RAILWAY ABANDONMENT

The Board of Railway Commissioners met in Calgary last week end and heard arguments for and against the abandonment of the 22 mile stretch of railway from Langdon to Iritica by the C. P. R. and the abandonment by the C. N. R. of the 10 mile stretch of railway from Iritica to Belcher. Mr. Frawley of the Attorney General's Department appeared on behalf of the farmers along the Langdon-Iritica branch who want that line kept in operation. Harold Riley was legal representative of the Alberta Wheat Pool at the hearing and vigorously opposed the proposed abandonment.

McNAUGHTON HEADS BRITISH CORPS

Major-General A. G. G. McNaughton, general officer commanding the 1st Division of the C. A. S. F. has been appointed to the post of Lieutenant Colonel in command of a new British Army corps. Hon. J. L. Rolston, minister of national defence, announced in Ottawa recently. The new force will include the Canadians now overseas and will probably become an all Canadian force eventually. New Canadian troops arriving overseas will be attached to Gen. McNaughton's command, and non-Canadian troops will be made to give way.

Elevators Rebut Charges Of High Storage Earnings

All Elevator Interests Request Continuation of Present Tariffs

The President of the Line Elevators Association pointed out that the operating costs and plant maintenance of Country and Terminal Elevators were mounting due to the necessity of larger scales, better cleaning equipment, increased labor costs at the Head of the Lakes, increased taxation, and the necessity of guarding against sabotage. He contended that the present storage rate, which has been in existence for some years, of 1/30th of a cent per day, was originally constructed with the idea of providing a reasonable charge over a period of years, and that since no one had ever suggested an increase during poor crop years it was totally unfair to suggest a decrease in good crop years.

Rockyford

On July 2nd Rockyford held their annual Sports Day which was well attended. Among the afternoon's attractions there were two ball games played. The home team taking the honors against Iritica and Hineshead. To end a successful day a big dance was sponsored in the evening by the Red Cross.

Mr Bert Erwell and Mr Tom Cartwright visited Rockyford Sunday afternoon during a few hours leave, looking very trim in their new uniforms.

Mr and Mrs P. Cote and family from Nelson visited with Mrs B. Erwell for several days. They left Sunday for Caroline and Rimby.

Miss Dorothy Dumen from Spokane is visiting Mr and Mrs Busch and family.

Mr and Mrs F. Crawley, Miss Jean and Helen Burshaw from Spokane are visitors at the Dahm home.

Miss Betty Wright from Aldrie has been visiting Mr and Mrs R. L. Stone and family.

Mr Harvey Birt is leaving Tuesday morning to take up an Aircraft Course in Calgary. His studies require him to stay in Calgary for 3 months. We wish much success in Harvey's new line of work.

Mr and Mrs A. Easton are holidaying in Jasper for two weeks.

Miss Ruby Thomas was a guest at her home in Acme during the week end visiting her mother and sister and her many friends.

Mr and Mrs F. Hoppe are on their holidays visiting their daughter who will be returning home with them and friends at Fairview, Alta.

Under The Street Lamp

—by Pat O'Hoolley—

Ada Wright approached the post-office window and said to Ralph Martin "I would like to look at your red two cent stamps, please." Ralph obligingly brought out a sheet of one hundred stamps. Pointing to one in the center of the sheet, his discriminating customer said sweetly: "I'll take that one."

"She ditched me—she was broke, I guess," excused Lolly Downey.

A negro minister discovered two men playing cards on Sunday — and for money.

"Hastus," said the minister, "don't you know it's wrong to play cards on the Sabbath?"

Yes, Rabson," answered Hastus, ruefully, "but believe me, ah's payin' fuh mah sin."

When caught fishing with a year old fishing permit, Billy Woodliffe exclaimed: "Hang it all, I'm only trying to catch the one that got away last year."

"Where ya from?"

"Chicago."

"Check ya are! Know Bert Downing?"

"Naw."

"S'funny. Know Johnny Billings?"

"Naw."

"Bill Jacob?"

"Naw."

"Well maybe you live in Chicago, but sure a chick you ain't been around much."

"Did you know Jones had quit drinking?"

"Yes, I went to his funeral yesterday!"

Bob Sharp: "Aren't they checks a sign good health?"

Georgina: "I should say they are."

Sharp: "Well, you're a lot healthier on one side than the other."

—1941—

Nightingale

To all who enjoy a good dance—Please keep in mind July 26th when the W. L. gives you a cordial invitation to Nightingale Hall. Mrs. W. L. takes the orchestra will provide the music and the Nightingale community guarantees you a good time.

The regular meeting of the W. L. was held at the home of Mrs. George Thurston on July 11th. There were 16 members and 7 visitors present. A discussion concerning the coming dance resulted in the date being set for Friday, July 26th. The arrangements are in the capable hands of Mrs. A. Kimmet and her helpers. Mrs. A. Mercer, Mrs. Morton, Mrs. C. Kimmet and Miss A. Thurston. Mrs. W. Mercer read an article from the Calgary Herald in reference to the Municipal Hospital at Carmangay, and Mrs. Folk, who resides in the Carmangay district gave an interesting talk and answered questions about this hospital. Mrs. Brown has undertaken to form a girls' ball team and Mr. A. Kimmet has offered to act as coach. The girls will meet at Nightingale on Wednesday evenings and under such leadership should be able to give a good account of themselves after a few practice games. Three more articles donated by Mrs. Larsen were auctioned and realized the sum of \$1 cents. Several quilt blocks were handed in and it is hoped that the rest will be ready for the next meeting so that the quilt may be put together. After the meeting adjourned a social hour followed interspersed with musical selections by Mary and Lois Kinney and Delores Morgan. Mrs. Walter Mercer's contribution of songs gave much pleasure to her audience.

The next meeting of the Nightingale W. L. will be held in the Hall on the afternoon of Thursday, July 26th when Mrs. P. C. Grevett of Calgary will be the guest speaker. A general invitation is given to all ladies in the locality to attend this meeting. Afternoon will be served with a small charge of ten cents will be made to cover the cost of hiring the Hall. Mrs. Henry Hilton and Mrs. E. M. Stoodley are in charge of arrangements. A feature of the meeting will be a display of antiques or objects of interest from other lands. With those who have such articles in their possession kindly bring them, together with a short written article giving particulars of the exhibit. Mrs. W. Mercer will have charge of this display.

Here's How **THEY** get on the Inside of the **Outside** Market!

Alert, successful advertisers and merchandisers know that 69% of Canada's retail sales are made over the counters in the smaller communities, outside the metropolitan centres.

And they know, too, by experience, that the most direct, most economical, most effective means of reaching the 7,750,000 consumers in that great major market—and of securing the co-operation of the dealers who serve them—is by advertising in the Weekly Newspapers.

That's how they get on the inside of that 69% outside market. And here's why they use the Weekly Newspapers to get there.

It's because they know that the Weekly and only the Weekly caters to and serves the intimate, personal, "home-town" interests of its readers; that it is their paper in a sense that no other or outside publication can hope to be; that it is their guide in making 69% of the nation's total retail purchases.

When planning your 1940 advertising budget, be sure to have all the facts about the dominant position of the Weekly Newspapers in Canada's 69% outside major market. Write, now, for precise information.

Local News Items

The boys in Shilo are all laughing
at Harold Freeman these days. It
seems Harold was one of a stretcher
squad evacuating wounded in a sham
battle down there, and was sent out
one mile for patients. Harold got lost
and was wandering around the battle
field for an hour before he finally
found his bearings.

Bert Freeman, Leo Melissen and
Bill Brown were home on leave over
the week end.

Mr and Mrs Elmer Gray and Mr
and Mrs Fred Holmes are spending
the week holidaying in and around
Jasper.

Dr Jervis and family, formerly of
Strathmore now living in Miller, B.
C. were guests at the Schulte home
Friday last.

Miss Aiken of P. E. Island was pre-
sent with her brother Rev. M. E. Ait-
ken of Central Church, Calgary, at the
Induction Service last Friday.

Rev. Father Leaver, formerly of
Strathmore has been transferred from
Calgary to Cowley, during the former
Parish Priest's absence as Chaplain
to military forces in Calgary.

Ray Bowers and party spent last
week end at Caruso Siding.

Mr Robert Webb and family at
Tacoma, Washington, is in the Strath-
more and Rockyford district for a few
days. Mr Webb is an old time resident
of Strathmore and owns several pieces
of property here.

Pupils of Violet Hyde who have just
received examination results from the
Toronto Conservatory of Music are:
Grade I, Theory, Shirley Lintick, 1st
Class Honors; Grade II, Piano, Lou-
isa McKenize, Honors; Grade II,
Piano, Helen McKenize, Honors.

Mr Sid Lindstedt, teacher of Chess-
holm and Director of Fairweather
Boy's Camp, spent Monday evening
and Tuesday morning conferring with
Mr Hunt.

Dorcan Gordon has received word
that he is report to the Bank in Cal-
gary on Monday morning. Dunc's
many friends will be sorry to see him
leave Strathmore, where he has taken
an active part in affairs.

CAMROSE CLEARING
CENTRE FOR ALBERTA

The Camrose School Board received
word a week ago that the Government
would require possession of the Cam-
rose Normal School as a distributing
depot and dormitory for evacuee chil-
dren sent here from England. T. J.
Blaine, Supt. of Child Welfare in the
Province inspected the building and
said on his return to Edmonton, that
it was admirably fitted for such use
and that no major alterations would
be required. The building is expected
to be ready to receive the first group
of children this Thursday. Mr. Blaine
was accompanied on his inspection by
Mr. Robert Muir of the Red Cross, Al-
berta Branch. Dr. H. M. Bow, deputy
minister of health for Alberta has said
the Dominion government would be
fully responsible for the children, and
will delegate responsibility to the pro-
vincial authorities for their respective
quotas.

Camrose School Board officials
started an intensive search, through
the town for available school accom-
modation immediately on receiving noti-
ce, and feel they were fortunate in
securing basements of two churches
and a spare room in the cottage
School. Nothing of a permanent na-
ture, they feel, can be done in the in-
terim between now and school open-
ing.

Children will be housed in the nor-
mal school building until suitable
home in the Province can be obtained
for them. The normal school building
is at present, it is stated, in equip-
ment of supplies and funds for equip-
ping and staffing the building, and
arranging for transportation.

ALL CANADIANS OVER 16

TO REGISTER IN AUGUST

Ottawa—Preparations for a registra-
tion in August of every man and
woman in Canada over the age of 16
and organization of the new depart-
ment of national war services went
forward.

Maj.-Gen. LaFleche and Mr. Justice
T. C. Davis of the Saskatchewan

eral government. It was felt that
individuals or groups who are wholly
unwilling to accept the responsibilities
of citizenship should not be admitted
to this country and given its privi-
leges.

Do You
RUBBER
STAMP
Your Business?

BUSINESS men, housewives,
any of your customers, ap-
preciate neatness and judge your
business by its appearance.

The envelope, letterhead or
statement slapped with a blurred
rubber stamp, marks you as well
as your store.

Have Your Stationery
PRINTED

at "the Standard"

Court of Appeal, will be joint deputy

ministers of the new department.

Letters have been sent out to the
chief justices of all provinces asking
them to name a judge to act in a su-
perior capacity for the registration
within the area and over the distribu-
tion of manpower after the registra-
tion is completed.

The facilities of both the Dominion
bureau of statistics which compiles
the decennial census and the chief
electoral officer who compiled the vo-
ters' lists for the Dominion elections
will be utilized in the registration.

Registration in each constituency
will be under the direction of a regis-
trar and a deputy registrar and it is
hoped these officials can all be appoin-
ted before the end of the present

week. Forms for the registration are

now being printed.

Canadians will have to present
themselves before an official for regis-
tration. No house to house canvass
will be made as is done in the taking
of the census.

Enforce Penalties—

Public notices of the registration
will be given through all available
means of publicity and penalties will
be provided for failure to register.

The government will obtain partici-
pation of the age, physical condition,
domestic responsibilities, trade, occu-
pation, profession, willingness to
serve in various capacities of every
man and woman in Canada.

It is likely the 1940 registration will
total at more than 7,000,000 persons.
